## SOFTWARE ENGINEERING STUDENT

Final year Software Engineering student (Génie Logiciel et Systèmes d'Information) with a Bachelor's in Computer Science and hands-on experience in full-stack development, DevOps, and AI. Proven ability to deliver end-to-end solutions in real company environments using modern tech stacks. Currently pursuing AWS Generative AI certification with a strong focus on cloud and AI-powered applications.

## KEY COMPETENCIES

**Languages:** Python · Java · TypeScript · SQL · C · PHP · R
**Frontend:** Angular · Node.js · Bootstrap · HTML5 · CSS3

**Backend:** Spring Boot · Symfony · REST APIs
**DevOps & Cloud:** Docker · Jenkins · GitLab CI/CD · SonarQube

**Databases:** PostgreSQL · MySQL · XAMPP · Data Warehousing · Big Data
**Design & Tools:** Figma · UML · Git · GitHub · GitLab

**AI & Data:** RAG (Retrieval-Augmented Generation) · Prompt Engineering · Machine Learning · Generative AI

**Methodologie:** Agile/Scrum · Design Patterns · Software Architecture

## PROFESSIONAL EXPERIENCE

**El Mazraa – Fondouk Jedid** **2026-07 – 2026-08**
**Full Stack Software Engineering Intern – Enterprise Workflow Management Platform**

- Built a full-stack workflow platform for three agri-food companies (EL MAZRAA, DICK, ESSANAOUBER)
- Engineered a role-based 7-step approval workflow with Spring Boot and JWT auth
- Developed responsive Angular 21 interfaces for multiple user roles
- Modeled relational data with MySQL for complex workflow logic
- Set up CI/CD pipelines with GitLab CI/CD for automated builds and deployment
- Containerized the app with Docker for consistent environments
- Built strong working relationships with cross-functional teams, fostering a collaborative and supportive work environment

**Sagemcom** **2024-02 – 2024-05**
**Computer Science Intern – Final Year Project (PFE)**

- Designed and developed a full-stack web application to digitize and automate REX Excel file processing workflows, eliminating entirely manual data entry across departments
- Built dynamic, responsive user interfaces using Angular, improving operational usability for end-users
- Engineered scalable RESTful backend services using Django, handling complex business logic and data transformation pipelines
- Architected and maintained a complete CI/CD pipeline using GitLab CI and Jenkins, significantly reducing deployment time and ensuring code quality via SonarQube integration
- Containerized the full application stack using Dockerhub, guaranteeing environment consistency from development to production
- Operated within an Agile/Scrum team, participating in sprint planning, daily standups and code reviews

**Elite Conseil Consulting – Tunis, Tunisia** **2023-07 – 2023-09**
**Frontend Developer Intern**

- Developed a fully functional, responsive booking web application from design to deployment
- Created detailed UI/UX mockups and user flow prototypes using Figma
- Built interactive frontend components using Angular and Bootstrap, ensuring cross-browser compatibility
- Designed and optimized relational database schemas to support core booking and scheduling logic

**STB Bank – Tunisia** **2022-07 – 2022-09**
**Observational Intern**

- Gained structured exposure to enterprise-level financial systems
- Supported team operations and assisted in onboarding new interns

## EDUCATION

**2024 – Present**

**TEKUP University – Tunis, Tunisia**
**Engineer's Degree in Software Engineering:** currently in 4th year, with consistent academic improvement throughout the programme.

Relevant Coursework:
· DevOps Engineering (CI/CD, Docker, GitLab)
· Artificial Intelligence & Machine Learning
· Big Data & Business Intelligence
· Spring Boot & Advanced Backend Development
· Angular (Web Frameworks)
· Software Architecture & Design Patterns
· Agile Project Management
· Advanced Databases & Data Warehousing
· Generative AI & Image Processing

**The Higher Institute of Information Technologies and Communication (ISTIC) – Tunisia** **2021 – 2024**

## CERTIFICATIONS & LANGUAGES

**AWS Generative AI Certification -** In Progress

**Arabic -** Native speaker

**English -** Professional proficiency (B2) : OnSet Test

**French -** Professional proficiency (B1)

**German -** Basic proficiency (A1) — actively improving

## SOFT SKILLS & INTERESTS

**International Winter School – Turkey** **2026**
**Selected Participant | Soft Skills & Professional Development**
· Competitively selected by TEKUP University to represent the institution at an international academic winter school
· Participated in intensive workshops focused on professional soft skills, communication, and personal development
· Gained cross-cultural experience through collaboration with international students from diverse academic backgrounds
· Demonstrated initiative and academic merit through university-level competitive selection process
